Square D SC816D200C (residential only)

Thomas & Betts TBMB20SN (residential only)

Thomas & Betts TBMB20SLBN (residential only)

Notes:

1. All residential combination meter panels installed in Chugach's service area shall meet the requirements of SS-1 or shall be reviewed and accepted in writing by Chugach. The products listed above met this service standard, or were reviewed and accepted at the time of publication of these Electric Service Requirements.
2. Chugach does not specify short circuit current ratings for meter disconnect or service disconnect devices. It is the responsibility of the designer and/or installer of the equipment to evaluate and install a device with an AIC rating appropriate for the circumstances.
3. The catalog numbers listed above typically represent the lowest available AIC rating for a particular product.
